

NETWORK Bridge

The GJD NETWORK Bridge allows any GJD IP enabled device to connect and integrate with supported third party video management software such as the Avigilon VMS.

- NETWORK Bridge supports up to 50 I/O
- Includes an intuitive web browser interface to discover GJD IP products on the same network as the NETWORK Bridge
- PoE or PSU connected power input

Supported Third Party Integration

Avigilon
Milestone

PRODUCT CODES

GJD1060 NETWORK Bridge

SPECIFICATIONS

Works with the following GJD products
