Excellent Price-Performance...

The EyeSpy247Ext is an IP65 rated (Water/Dust Proof) IP camera designed for outdoor video surveillance applications. With a high quality progressive CMOS sensor, this camera is capable of providing H.264, MPEG-4 and M-JPEG triple streaming at VGA resolution up to 30fps.

It has automatic day/night switching, Infrared (IR) illumination up to 10 metres in total darkness, PIR and sound sensors, 2 way audio, and longer range 802.11N wireless connectivity.

As a stand alone camera it doesn't need to be connected to a computer to work or require any special viewing software and is Windows, Mac and Linux friendly.

The unique auto-configuration system built into the camera will help you get it set up for remote viewing from a PC or mobile with just one click!

What's more, only EyeSpy247 cameras have **Exclusive** built-in access to our online platform making it easy to view Live video from anywhere plus you get extensive **Free** services including automated monitoring, off-site recording, email/SMS intruder alerts, and more.

Now it's simpler and more affordable than ever to keep a remote eye on the people and places important to you. Our complete solution of Internet camera and web based monitoring platform will keep you informed when it matters, no matter where you are.
